## A few words about us.

We are an independent recruitment agency that has been operating in Brisbane for over a decade. Our team is committed to identifying client needs and delivering suitable candidates that are passionate and dedicated to their work. Established local networks, specialist expertise and a personalised service is what makes us different. We believe in a total human capital solution that is based on experience, honesty and commitment.

## Why use Odyssey?

### **Capturing Talent**

We are in the marketplace day in and day out, building relationships and developing networks. We are aware of hidden talent outlets that are difficult to access through advertising, associations, databases or the internet. Our candidates are screened and presented to clients as a shortlist for final appointment. This saves time and allows clients to focus on other critical business matters.

### **Expertise**

Nobody knows the employment marketplace better than a professional recruiter. Our team is intimately aware of changing business trends and responds rapidly to market conditions. Our perspective on the employment landscape is unbiased and unhindered by internal business politics. We know the neighborhood, including the addresses so often overlooked.

### **Commitment to Service**

Our guarantee is to give focused, individual attention to each of our clients. Our consultants will assist you through the entire recruitment and selection journey, encouraging and challenging you to excellence by hiring the right candidates, rather than the 'satisfactory' ones. We are here not to fill a slot in the organisational chart, but to provide the right candidate to solve a problem.

### **Retaining Talent**

Motivating and developing staff through training and development is one of the most important factors in employee retention. Odyssey Training offer technical and professional development training that not only improves retention but encourages staff to be life-long, engaged learners.
